*....the ego is very vulnerable and insecure and it sees itself as constantly under threat. This, by the way, is the case even if the ego is outwardly very confident..." (Eckhart Tolle)*

Unless we are an Enlightened Master, most of us can experience the agonising and often overwhelming effects of fear. Fear is rife in the psyche of humanity. As a collective species we are regularly faced with its insidious nature as it slowly blackmails us into surrendering to its will.

Like a deadly spider, it sets out to trap us in its multi-stranded false Web of Power, slowly paralyzing us with its poisonous venom, making it difficult to escape from its control over our lives.

Here are just a few of the ways it operates. Fear of loss, fear of failure, fear of success, fear of criticism, fear of rejection, fear of the future, fear of making mistakes, fear of abandonment, fear of being hurt, fear of not having enough, fear of not being good enough, fear of loneliness, etc; etc; And if we really look deeper, most of all the major problems in the world have their origins in the fact that someone or some nation, is afraid of something.

In this brand new workshop we will learn to access the Divine Inner Warrior, that aspect of our self that is the only real antidote to fear. We will be using powerful spiritual tools that will help us handle fear more effectively and you will also find out the significance of the planet Mars in your personal astrology chart. Mars is the planet of bravery and action. Come and take the first steps that lead you from the fear that can freeze you to the Courage that frees you.
