Discovering Scientific Hand Analysis was one of the best things I ever did and when I had my hands analysed by this amazing system, It blew me away

That was several years ago when I was already an established practitioner and workshop facilitator and it all showed up in the lines and markings on my hands.

I couldn't believe it. I was so intrigued, I began to take classes. A short time after, I met Rosaleen and through our shared passion for the subject, we began running workshops together.

It's been some time but we have finally synchronised our diaries and are delighted to offer you these two long awaited new workshops.

If you want the full experience then come to both days or you may wish to attend either one of them separately. There is different information on each day.

# Listen to the Messages in Your Hands

Saturday 17th November 9.45 am to 5.30 pm

## Your hands are full of incredible wisdom

Through the lines and markings on the palms of your hands you can gain access to important information that can really help you navigate the twists and turns of life.

Scientific Hand Analysis is not predictive palmistry. It provides you with a map of your psychological and spiritual journey and acts as a wise guide.

A lot of blocks, barriers and old patterns reside in the subconscious mind and accessing them by conventional methods is often a lengthy process.

But the hands “speak” to us in ways that can be seen and acknowledged enabling us to bring about changes more easily

## During this workshop you will discover

- The 9 astrological areas in your palms that are your greatest teachers
- The energy lines that are shouting out to get your attention
- How these markings help or hinder you
- The unconscious programmes you may be running that keep you stuck
- How to reclaim the power that you are not yet fully using
- How listening to the wisdom in your hands can reveal your next step

There will also be a Q&A session and an opportunity for you to “try your hand” at reading hands yourself. We’ll give you a taster session so you can surprise your friends and family. The order form is on the last page

# *Petals in Your Palms*

## *The 7 Sacred Chakras in Your Hands*

*Sunday 18th November 9.45 am to 5.30 pm*

Painting by kind permission of Wendy Andrew [www.paintingdreams.co.uk](http://www.paintingdreams.co.uk)

Most people on a spiritual path are familiar with the chakra system flowing through the body. These are the vortexes of energy that Hindu teachings refer to as the 7 sacred lotuses with a particular number of petals allocated to each one.

**However, not many people are aware that there are chakras in your hands.** In order to achieve physical, mental and emotional well-being, there needs to be a strong flow of energy within our chakra system.

Thanks to Scientific Hand Analysis, we now have a method of gleaning information about our chakra system through our hands. The workshop covers:

- The Chakra Zones in the hands
- Our security centre and ways of handling fear
- How our validation and self worth show up in our hands
- How we can strengthen our self love and creative expression centres
- Tuning in to the Third Eye, intuition and spiritual awareness centres
- Discovering the strongest Chakra in your hands
- Strengthening the Chakra that may need most attention

You will also get a chance to focus on a specific area of your life that is important to you at this time and see what your hands have to say about it.
